Date Created:	23-04-2020	Last Revision Date:	26-11-2020
Concepts Covered	1. Case Design (Primary & Alternate stages) 2. Routing – Workbasket Creation and Skills based Business logic routing 3. SLA 4. Data Design 5. Data Transform 6. Locally Sourced Data, Data Reference, Savable Data Pages 7. Correspondence 8. Validations 9. UI – Layouts, Dynamic UI, Signature Control 10. Question Page 11. Reports 12. Delegation		
Description:	XYZ is a travel company who are pioneer in offering premium cruise travel experiences to their customers. They offer scheduled trips and widest range of services at an affordable cost. They already have a Pega application for reserving tickets to cruise trips. XYZ is committed to offer their best services to the passengers on board. In this regard, they want to develop a Pega application for Hospitality Management which can take care of Customer Services and Complaints. Business Objective: To manage customer complaints on time with utmost customer satisfaction and thereby increasing their annual cruise trip bookings by 50% Passengers can avail the services by calling the reception. The receptionist will capture the details and arranges the required services. The services could be Paid /Complimentary/ Compensatory. In a similar manner, customer can also register complaints such as Water leakage, AC repair, Food quality through the reception. The complaints will be handled by appropriate teams within 1 hour. Customer will be given some compensations like free beverages, loyalty points etc. Trip manager will continuously monitor all the service requests and complaints and make sure that everything is done on time to the satisfaction of the passengers.		
Actors:	Customer, Receptionist (any one from the team), Customer Service Executive (any one from the team), Food manager, Trip Manager		
Trigger:	The case is created when the customer calls the reception, asking for service or to register complaints		
Preconditions:	Create operators for Receptionist, Customer Service Executives, Food Manager, Trip Manager		
Postconditions:	On successful completion, • Customer will get the requested service • Customer complaint will be resolved. Customer may get some compensatory services like food coupon or loyalty points		

Normal Flow:	Compliments and Complaints Workflow - Compliments and Complaints case is created when the customer calls at the reception - Any one of the members from the reception team will initiate the case and collects the Customer ID - The details of the customer will be automatically populated to the receptionist - Receptionist will check whether the customer needs any service or customer wants to register any complaint - The Service child case is created in case of service request, Compliments child case is created in case of Complaints - Once the child case is completed, the receptionist will confirm from the customer whether their request is fulfilled and the case will be closed  Service Case workflow - Receptionist will collect the services required by the customer. The services could be any one of the following. - Asking for change of room – upgrading or downgrading – luxury to deluxe or vice versa - Ask for reserving conference room on the deck for corporate meetings - Access to smoking zone, Access to open upper deck - Asking for extra items like toiletry items, moisturizers, cushions, water bottles, room fresheners etc., - Change of bed sheets or other items - Asking for food and beverages delivered to room - Asking for dark / light window curtains in the room - Asking for wake-up calls - Required print out / scanning or some stationary - Photoshoot request - Purchase of garments or few general items - Based on the service selected, other details should be collected appropriately. [refer mockup screens for the same] - The first three services (1-3) will be routed to Trip Manager. They can either approve or Reject. - The other service requests are routed to the workqueue of Customer Care Executives
----------------------------	---

- The services 1, 2, 6, 9, 11 are paid services. Others are complimentary services.
- In case of paid services, the appropriate service charge has to be mentioned by the person who is doing the service
- The amount has to be **updated in Service Charge column of Customer SOR**
- The signature of the customer will be collected to ensure that the service is done and amount is added to their invoice
- The case closes and returns to the parent case
- In case of change of room request, the cost has to be calculated as follows

Suite	→	25000
Family	→	20000
Single	→	15000
Twinshare	→	7000 ²
Dorm	→	3000 ²

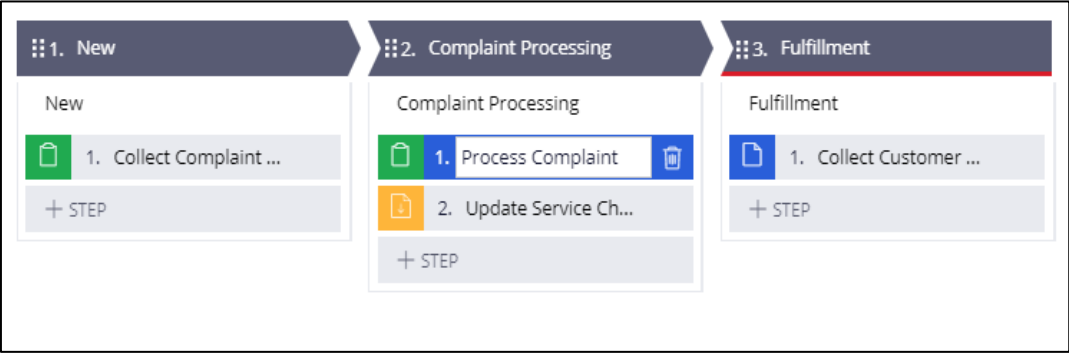

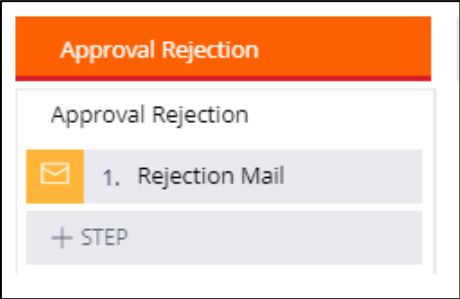

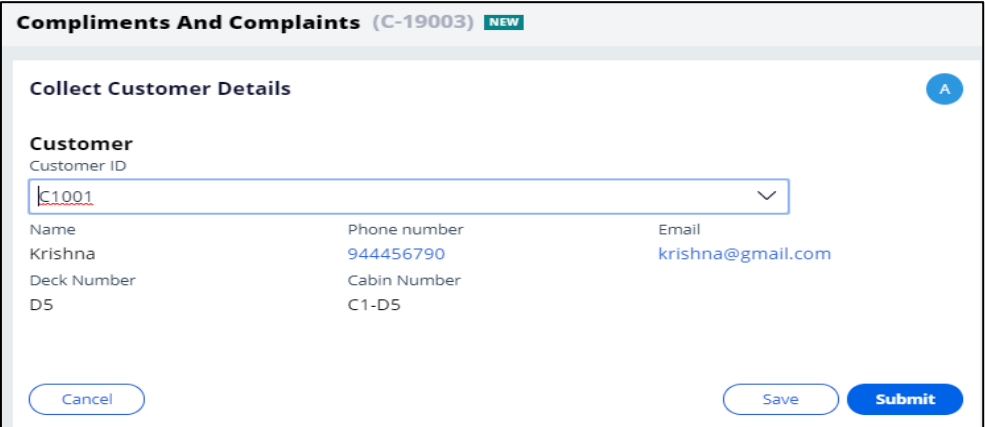

- Number of remaining days of travel will be set by the Trip Manager. The additional cost has to be calculated automatically

Complaints Case workflow

- Case is instantiated from the parent case (Compliments and Compliants)
- Customer details are propagated from Parent Case
- Complaint type and details are collected
- Complaint is routed to persons having appropriate skills

AC / TV / Fridge not Workir
Water Leakage
Lighting Issues
Food Quality
Arrogant Behavior of Staff

	• AC/TV/Fridge not working – Customer Care Executive with Electrical skills above 7 • Lighting - Customer Care Executive with Electrical skills above 5 • Water Leakage – Customer Care Executive with Plumbing skills above 7 • Food Quality – Food Manager • Arrogant Behaviour of Staff – Trip Manager • The customer can be given compensatory services like food coupons or loyalty points • The details have to be updated in Customer SOR • Customer Feedback will be collected • Case is resolved and returns to the parent 
Alternative Flows:	• The request about room change/ party hall booking / conference hall booking may be rejected by the Trip Manager • Customers will get an email about the same
